smartestenergy

Ecologi

Tree Planting
Commitment Certificate

This certificate is presented to:

The Brew Westland Place Ltd

This is to certify that **5 global trees** have been funded alongside the purchase of 100% renewable energy by SmartestEnergy Business.

By working in partnership with Ecologi, the scheme supports the planting of native and diverse trees in global locations including Madagascar, Mozambique, Kenya, or Nicaragua.

Our tree-planting partners work closely with local communities, providing employment and empowering them with sustainable practices.

Thank you for supporting our global reforestation efforts, taking real climate action to reduce carbon emissions and create a more sustainable future.
